Dr. Andrew Knight

Dear Campus Christian Group Leader,

I would like to invite you to take a look at my 2020 Speaker Media Kit. I have over 30 years of ministry experience where I've ministered to hundreds of churches and ministries in the United States and the Third World. With the recent release of my fourth book, *Transformational Truth, Volume II*, I am available for speaking engagements.

For the fall and winter of 2020, I am offering my lectures to college ministries such as yours to reach out to equip Christians with truth and challenge skeptics to hold a theistic worldview.

This year's topics include four vital lectures that are affecting Christians today like never before: "Does God Exist," "Biblical Manhood and Womanhood," "The Problem of Suffering," and "Developing a Biblical Worldview."

Kindly take a few moments to look through my media kit and consider booking me for your next event. We expect my calendar to fill up quickly, so please do not hesitate to reach out and schedule a date for me to speak at your church's college ministry!

Prayerful regards,

The Problem of Suffering

Why would a God who is morally good allow evil and suffering in the world? Why do those who believe in Him often suffer the most? This insightful lecture dives into the truth of God's goodness and morality and how it applies to each and every one of us from the perspective of a man who's experienced suffering and grace firsthand.

Biblical Manhood and Womanhood

As the culture of the world shifts away from Biblical masculinity and femininity, Christians are often caught up in its ever-changing ideas about their sexual identity. This lecture explains the Bible's clear, unchanging, and *good* plan for manhood and womanhood that pleases the Lord and sows happiness and spiritual prosperity.

OFFERINGS & RATES

Church Lectures

Includes 60-minute topic of your choice with a question and answer time. Rates start at \$1500.

Developing a Biblical Worldview

66% of young adults drop out of church between the ages of 18 and 22. With the newfound freedom of college, peer pressure and busyness often trump the Biblical guidance of their youth. Why? Because they never made Christianity real by developing a Biblical worldview. This lecture discusses why and how young people can take this vital step of faith in developing a personal worldview based on the Bible's principles.

Does God Exist?

Why is the Genesis account of Creation significant to the origins of Civilization? The Gap theory will be discussed. Why is the resurrection of Christ the centerpiece of a theistic worldview? The three major theories that oppose the account of the resurrection of Christ will be examined.

Full-Day Seminars

Includes all four topics in 60-minute sessions with question and answer times. Rate is \$4000.

SPEAKING TOPICS

THE PROBLEM OF SUFFERING

One of the greatest causes of skepticism in the world is the problem of suffering. Many have posed the question, "If God is real and good, then why does evil and suffering exist?" Skeptics frequently use this debate to argue God's existence, and many Christians struggle with the perceived inconsistencies in their spiritual walk and hardships.

The problem of evil is a very real topic that must be addressed to every individual, and one that will affect their entire outlook on God and Christianity.

Dr. Andrew Knight's miraculous story makes him a premier speaker on this very topic. As a survivor of extreme hardship and pain, his testimony shows that while suffering and evil are real in the world, God is real and has a plan.

This lecture reveals the reality behind evil in the world, explains how God can still be good when He allows this suffering to happen, and tells how each Christian can fully trust God no matter what hardships they face. [Read the full topic description here.](#)

Objectives: To resolve the supposed inconsistencies between God's morality and the problem of evil in the world.

BIBLICAL MANHOOD AND WOMANHOOD

The culture in 2020 is constantly shifting further and further from Biblical principles. We live in a world where sexual fluidity is prevalent and accepted, even in some Christian societies. But the Bible has a lot to say about sexual identity, and the truth is substantial.

As the world spreads messages of feminism and the dissolution of the patriarchy, Christians are responsible for upholding a Biblical standard of manhood and womanhood. And while many young people cringe at the connotations behind those words, the truth written in the Bible holds a much sweeter and happier message than just "submission."

Dr. Knight's lecture on Biblical manhood and womanhood shows God's true plan for men and women to live in harmony and happiness with one another in the roles that He has laid out. Using Scripture as a guide, he uncovers God's desire for each man and woman to embrace their God-given sexual identity and to live a marital life that brings both parties equal happiness and spiritual prosperity. [Read the full topic description here.](#)

Objectives: To explain God's true plan for sexual identity and dissipate the connotations that Biblical roles are outdated and unrealistic.

SPEAKING TOPICS

DEVELOPING A BIBLICAL WORLDVIEW

In order to create a Biblical worldview, each individual must have a firm Biblical philosophy. In this lecture, Dr. Andrew Knight will clarify what a philosophy is and connect each point to Biblical verses and principals, while distinguishing the difference between humanistic philosophies and that of the Bible.

Once the foundations of a Biblical philosophy are established, Dr. Knight will explain how these philosophies are the building blocks that individuals must use to create a real and steadfast Biblical worldview to guide them through life's trials and temptations. [Read the full topic description here.](#)

Objectives: To help young people understand the need for a Biblical worldview that keeps them firmly grounded in the Lord and to guide them through the process of establishing their own worldview based on Scripture.

DOES GOD EXIST?

God's reality is one of the core issues dissolving society. Atheists and agnostics are prevalent everywhere, even among the youth of God-fearing families. The truth is, it's much easier for an individual to hold himself accountable for his actions than to face the reality that he must answer to a higher power.

But where's the proof? How do Christians know that God exists? And if He is real, why are there so many different versions to Christianity?

Dr. Knight addresses all these issues beginning with the Genesis account and the origins of civilization. From there, he bares the truth to inconsistencies such as the Gap Theory and three major theories that dispute Christ's resurrection, which is the core of Christianity. [Read the full topic description here.](#)

Objectives: To undeniably prove the existence of an all-powerful God and to disprove false theories surrounding creation and Christ's miraculous resurrection.
