Ministry Experience

- **Christian School Teacher – Heritage Christian Academy - Wallingford, CT 1994-1996.** I taught 5th and 6th grades, 27 students, Math, English, History & Bible. The school was open enrollment. This was a ministry that was reaching out to and ministering to people on many levels. This ministry experience demonstrated, “always abounding in the work of the Lord.”
- **Pastor of Constitution Baptist Church Plant, Danvers, Massachusetts 1996-2000** God opened a door of opportunity to minister to the people in the town of the famous witch trials. While planting this church one could not help but think that they were walking through history. While pastoring there we saw many blessings, many were led to Christ and baptized. We had a good core group of people and had a high attendance of ninety-three people. We did door-to-door outreach; phone banking; and put our services on five local public access stations. Our best response was our Spirit of Christmas services.
- **Speaking in churches, on Christian radio and TV across America 2000-2001** While pastoring in Danvers gave this pastor valuable experience in which to share with local Baptist churches and Christian media outlets across America this pastor’s life testimony of God’s favor and grace.
- **Pastor of Constitution Baptist Church Plant, South Windsor, Connecticut 2008-2011** After several years in seminary another church plant was planted in South Windsor, CT. This pastor began with no one and grew to about twenty-five people with high days of fifty people in attendance. The first year a local builder gave our church free use of a building. Because of the signage on the highway, we were able to offer significant space to a Christian radio station in exchange for weekly airtime to preach the gospel

on-air every week. We also had an outreach to those required to do community service. Almost everyone who did community service at the church came to faith in Christ. Our church hired music students from Heart School of Music to teach young people music lessons. We then held recitals and presented the gospel. Several young people were baptized. A couple of memorial services were conducted which resulted in further ministry to other families.

- **President – Centurion Education Foundation (2014 – Present)** The vision for Centurion Education Foundation began while in seminary. This non-profit seeks to raise endowments for world missions and to train men for the ministry. www.CEF.gives
- **Director and Bible Teacher – Institute for Biblical Apologetics (2020 – Present)** The purpose of the Institute for Biblical Apologetics is to instruct Christians to be more effective in communicating the gospel. Lectures on biblical apologetics are available on the site and in local churches. The five books are available, three of which deal with many aspects of presuppositional apologetics. www.ApologeticsNow.org
- **Curriculum Consultant – 2021 to present** Helping to develop graduate and postgraduate programs for local churches, and independent Baptist seminaries.

Professional Societies

- King James Bible Research Council
